CHEMICAL AND PETROLEUM ENGINEERING

Volume 10, Numbers 1-12, 1974

(A translation of *Khimicheskoe i Neftyanoe Mashinostroyeniye*)

Engl./Russ.

VOLUME 10, NUMBER 1, JANUARY, 1974

NEW MACHINERY AND EQUIPMENT

- Production of Large High Pressure Equipment — V. M. Makarov and B. G. Zisel'man. 3 1

DESIGN AND CONSTRUCTION OF MACHINERY AND EQUIPMENT

- Low-Cycle Fatigue of Tubing Grids — B. S. Koval'skii, V. M. Dolinskii,
and P. S. Marchenko 6 3
- Study of the Hydraulic Characteristics of Control Valves with Rotating Plugs
— I. Kh. Paikin and O. G. Kryzhanovskii 10 5
- Increasing the Intake Capacity of Hermetical Electropumps of the TsNG Type
— V. K. Karakhan'yan and N. A. Makeeva. 12 6

INVESTIGATION AND CALCULATION OF THERMOPHYSICAL PROCESSES

- Determination of the Main Parameters of Vortex Bed Apparatus — D. D. Logvinenko,
O. P. Shelyakov, and G. A. Pol'shchikov. 15 8
- Design of Processes for Cooling Cryogenic Equipment — V. G. Pron'ko and
G. M. Leonova 18 9
- Dynamics of a Fluidized Bed in "Kristall" Type Crystallizers — V. G. Ponomarenko,
Yu. A. Kurlyand, A. G. Belous, and S. Ya. Glushko. 23 12
- The Operation of Overflow Devices of Horizontal-Section Equipment with a Fluidized Bed
— A. V. Govorkov, I. I. Shishko, A. P. Baskakov, and V. T. Permyakov 27 14
- Intensification of Heat Exchange by Artificial Agitation of the Liquid Stream in Tubes
— V. M. Antuf'ev and V. A. Vedenev 32 16

NEW MATERIALS AND CORROSION CONTROL

- Corrosion Resistance of Copper Weld Joints Made with an Unshielded Arc
— N. T. Lositskii, V. Ya. Glushko, S. I. Stepanov, and V. V. Vinnichenko 36 18
- Corrosion Resistance of Titanium and Its Alloys in Corrosive Industrial Media
— I. I. Bondarenko, A. Z. Boiko, and T. M. Mozgushina 38 19
- Effect of Carbon on the Structure and Properties of Unstabilized Steels of the Kh21N21M4
Type in Extraction Phosphoric Acid Solutions — L. I. Posysaeva,
V. A. Petrovskaya, A. V. Smirnova, and V. N. Brodova. 40 20

EQUIPMENT MANUFACTURING TECHNOLOGY

- Electro-Abrasive Grinding of Parts of Corrosion-Resistant Steel — I. K. Perestoronin,
F. K. Bal'chunas, and V. P. Sirotkina 43 22
- External Circular Grinding of Unhardened Structural Steel with Elbor Wheels
— M. É. Itkin, G. K. Kamalov, Zh. A. Yusupov, and A. A. Zadnev 45 23
- Reconditioning of Thin Knife-Like Components in Press Molds for Vulcanizing
Automobile Tires — S. G. Kuzbar', I. M. Nesterenko, and V. I. Tkachev. 47 24
- Fabrication of Protective Liners for Splashproof Electric Motors — A. M. Zhuchkov,
B. S. Artemov, I. G. Mutikhin, V. V. Smirnov, L. G. Yudin,
and A. S. Malenichev 49 25

NORMALIZATION AND STANDARDIZATION

- Optimization of Selection and Unification of Shell and Tube Heat-Exchangers in Operating
Plants — V. V. Kafarov, A. G. Pitertsev, R. Kh. Mukhutdinov,
and G. E. Kanevets 51 26

QUALITY, RELIABILITY, AND LIFETIME

Microlapping of the Surface of Compressor Piston Pins — É. Kh. Roitershtein and M. E. Arshavskii	55	28
Deep-Well Pump Rods Hardened by Plastic Deformation — A. G. Zokhrabov, A. M. Rabinovich, and B. M. Akhmedov	57	29

EXCHANGE OF EXPERIENCE

Automatic-Welding Unit — V. D. Zorin	62	31
Electroslag-Welding Unit — N. A. Sypchenko and M. L. Bregeda	64	32
Machine for Manufacturing Gland Packing for Gate Valves with $D_n = 50$ mm — V. A. Bruk	66	32
New Machine Tool for Straightening Bar Stock — M. I. Zakryatin and É. V. Timofeeva	68	33
A Hydraulic Press for Trimming the Ends of Springs — M. G. Semenyuk	70	34

INFORMATION

Production of New Equipment	71	35
A Screw Feed for Delivery of Pasty Materials — V. V. Ivanchenko, V. A. Platonov, and G. F. Streletskii	75	37
New Design of Tubeless Heat Exchanger — M. D. Kuznetsov and L. I. Nepomnyashchii	77	38
Designs of Centrifugal Sealed Pumps Driven by an Electric Motor in a Gas Cushion — V. V. Burenin and V. P. Dronov	80	39
Quality of Deep-Well Sucker-Rod Pumps — M. D. Aliev	84	42
An Apparatus for Finely Grinding Inflammable Materials in an Inert Gas Medium — G. V. Belichenko, V. S. Solod, and A. E. Kurinnyi	87	43

FOREIGN TECHNOLOGY

Control Valves — L. S. Bodnarchuk and Ya. L. Shteingrad	89	44
---	----	----

BOOK REVIEWS

New Books	92	46
---------------------	----	----

VOLUME 10, NUMBER 2, FEBRUARY, 1974

For Further Accelerated Development of the Production of Equipment for the Inorganic-Fertilizer Industry	97	1
---	----	---

NEW MACHINES AND EQUIPMENT

New Automatic Centrifuges for Low-Tonnage Manufacturing and Pilot Plant Assemblies — B. V. Popov, N. Ya. Nikitenko, and V. I. Grechanichenko	102	4
Small-Sized Rolls for Rubber Processing — A. P. Plyushchev, É. I. Goloskov, and E. A. Medvedskii	106	5
Machine for Coating and Drying of Heels — O. D. Petrov, A. V. Klimova, and Ya. A. Berdichevskii	109	7

DESIGN AND CONSTRUCTION OF MACHINERY AND EQUIPMENT

Calculations on Spiral Heat Exchangers — B. S. Koval'skii, A. V. Silant'ev, and P. S. Marchenko	111	8
Note on the Design of Seals for Reciprocating Pairs in Drill Pumps — O. Ya. Sidorenko and Ya. S. Mkrtychan	117	12
Strains in Flange Joints under Transverse Stress — L. P. Karasev	120	13
Design of a Toroidal Expansion Joint — L. D. Lugantsev	123	15

INVESTIGATION AND CALCULATION OF THERMOPHYSICAL PROCESSES

Results of an Experimental Study of Laminated-Corrugated Heat-Exchange Surfaces — G. S. Antonenko, Yu. N. Dubov, I. A. Moroz, P. M. Shlyak, and A. D. Birman	125	16
Comparison of Sieve and Direct-Flow (Shower-Type) Plates in Vacuum Columns — A. B. Tyutyunnikov, V. L. Burin, V. N. Golosov, A. D. Nikolaenko, E. K. Tarynin, and V. A. Yarmak	129	18
Height of Ejection of Solid Particles above the Free Surface of a Heterogeneous Fluidized Bed — N. I. Gel'perin, V. G. Ainshtein, and L. M. Tishaeva	133	20

Column for Separating Thermally Unstable Products — V. M. Olevskii, V. A. Gertsosvskii, I. Ya. Gorodetskii, B. A. Lebedev, and V. I. Chernyshev. . . .	137 22
NEW MATERIALS AND CORROSION CONTROL	
Corrosion Resistance of Structural Materials in Lithium Chloride — T. B. Tokareva and V. V. Smolin.	139 23
Alkali Resistant Rubber — Ts. M. Goikhman, V. I. Kuras, N. P. Mustafa, N. G. Kolyadina, and L. M. Vsesvetskaya.	140 23
PRODUCTION TECHNOLOGY	
Electrodes for Manual Arc Welding of Corrosion Resistant Nickel—Chromium—Molybdenum Alloys — Z. A. Sidlin and G. I. Gerasimenko. . . .	142 25
ERRATA	146 26
PRODUCTION TECHNOLOGY	
Welding of Rectification Column Bubble Plates from Kh18N10T Steel Sheet — Yu. M. Berezhnov, L. I. Bessonov, G. L. Gordeev, V. G. Ar'kov, Yu. I. Cherchagin, and V. I. Kirillov.	147 27
Plasma Arc Welding of Kh18N10T Steel in Carbon Dioxide — É. N. Shevchenko and M. M. Kostin.	149 27
Reinforcing Cast Steel Valve Bodies with 1K13 Steel Sealing Rings — N. G. Nagaitsev, M. F. Markov, V. F. Pikhel'son, V. I. Naichuk, B. S. Ryl'nikov, and L. S. Grinapol'	151 28
Selecting Light Alloys for Die Casting Submerged Electric Motor Parts — I. D. Chmykh, A. A. Tarletskii, L. I. Rappoport, and G. R. Kartashevskii. . . .	154 30
Mechanism of Breakdown of a Glassy Coating in Grinding — A. N. Chernyavskii, G. A. Greis, N. S. Smirnov, V. M. Mizonov, and V. L. Sukhotinskii.	157 31
Induction-Heating Assembly and Disassembly of Immobile Joints — G. Ya. Andreev and V. I. Kushakov.	160 32
Selection of Lubricant for Local Drawing Operation in Stamping of Kh18N10T Steel Parts — Yu. A. Fedin, E. S. Kharichkin, I. F. Kolesov, and Yu. S. Maksimov. . . .	163 34
QUALITY, RELIABILITY, AND LIFETIME	
Characteristics of Dispersal Tubes and Delivery Nozzles of Jet Grinders — A. A. Dan'kin.	165 35
Effect of the Material and Hardness of a Counterbody on the Wear Resistance of a Glass-Ceramic Coating — T. A. Dmitrienko and E. V. Lyalin.	167 36
EXCHANGE OF EXPERIENCE	
Indexing Fixture for Machining Holes in Vessel Parts — I. Yu. Gel'fenbein, F. O. Pasternak, M. G. Rotenberg, and I. G. Nastasyuk.	169 36
Combination Die for Drawing Spheres and Cutting Stops and Legs in Rectification Tower Tray Valves — V. S. Perederii.	171 37
Ambulatory 200 kg Capacity Fork Lift — A. A. Dovgopol.	172 38
Mechanized Finished Parts Storeroom — F. P. Tyutyunnik.	173 38
INFORMATION	
New Device for Measuring and Monitoring Temperature in Regenerators of Air Separation Plants — A. P. Ermakov and V. L. Semiletov.	174 38
1APNF 62 × 50-210 Valves for Separate Oil Recovery — M. A. Efendiev.	176 39
A Machine Tool for Cutting Out Cores on the Internal Surfaces of High Pressure Vessels — A. P. Alyab'ev, V. V. Romanov, and I. F. Bulgakov.	178 40
Technique for Evaluating Sealing Capability of Polymeric Coatings — L. S. Pinchuk, A. S. Mikhnevich, and V. F. Skomorokh.	180 41
Sealant Adhesive for Fittings — L. M. Vsesvetskaya, L. B. Zelikman, and O. P. Bogdanov.	183 42
FOREIGN TECHNOLOGY	
Peripheral Compressors — S. G. Sokolov, F. S. Rekstin, Yu. A. Bondarenko, and V. P. Parafeinik.	185 43

BOOK REVIEWS

New Books	189	45
-----------------	-----	----

VOLUME 10, NUMBER 3, MARCH, 1974

NEW MACHINERY AND EQUIPMENT

New Machinery Produced by NPO "Uralgidromash" - B. A. Vakhrameev	195	1
New Equipment for Applying Liquid- and Gas-Tight Epoxy Resin Coatings by Spraying - B. A. Litovchenko	198	3
The UKR-1-72 Ramp Mixer - A. V. Vechera	201	4

DESIGN AND CONSTRUCTION OF MACHINERY AND EQUIPMENT

Cost Efficiency Characteristics of Tube-Encased Tubular Heat Exchangers - A. G. Gostyunin	202	5
Relationship between the Work of Compression of a Centrifugal Compressor Section and Gas Cooler Operating Conditions and Geometry - Ya. A. Berman, Yu. N. Marr, and V. A. Ryabov	207	7
Determination of the Static and Dynamic Moments of the Resistive and Inertial Forces on the Shaft of a Centrifugal Pump with an Asynchronous Motor on Start-Up - A. V. Lopatinskii	210	9

INVESTIGATION AND CALCULATION OF THERMOCHEMICAL PROCESSES

Design of Apparatus with Directed Movement of a Fluidized Bed - N. A. Shakhova, I. G. Grishaev, and A. V. Gamazina	215	11
Some Characteristics of the Hydrodynamics of Cryogenic Systems - N. V. Filin, G. G. Katsnel'son, A. V. Matveev, and Ya. L. Iovnovich	217	12
Choice of Equation for Calculation of the Rate of Discharge of Granulated Catalysts - Zh. F. Galimov	220	14
A Pneumatic Filtering Machine for Dewatering Polydisperse Materials - O. L. Bruk and A. S. Kofanov	223	15
Rotor-Jet Mixing Device for a Gas-Liquid System - N. I. Parafenko, G. K. Goncharenko, and M. Ya. Rozkin	226	17

NEW MATERIALS AND CORROSION CONTROL

New Nickel-Molybdenum Alloys for Chemical Plant - G. L. Shvarts, G. I. Gerasimenko, L. S. Makarova, A. P. Akshentseva, and B. A. Kardonov ..	228	17
New Materials in Plant Construction for the Gas and Petroleum Industries - V. Ya. Belousov	230	18
The Reaction between Metallic Materials and Freons - V. N. Lisov, A. D. Kharchishin, and I. A. Pagnueva	234	20

EQUIPMENT MANUFACTURING TECHNOLOGY

Fabrication of Filter Press Frames and Plates from Polyethylene and Polypropylene - A. I. Zaitsev, A. P. Posysioeva, G. F. Severov, and S. S. Kalitko	236	21
Edge Preparation of High Alloy Steels by Plasma Arc Cutting - V. V. Bulaev, A. V. Elpatov, and A. V. Boichuk	239	23
Quantitative Estimate of Tendency of Alloyed Wear Resistant Steels to Form Hot Cracks during Hardfacing - Yu. D. Sovgira and B. A. Podol'skii	242	24
Properties of Kh16N6 Steel Forged Pieces for Rotors of Centrifugal Separators - V. D. Zhdanov, A. L. Belinkii, G. M. Glikin, G. M. Ogorodnikova, N. V. Shestakova, and L. I. Davidenko	244	25
Determining the Spring-Back Angle and Accuracy of Parts Made in Bending Dies - Yu. A. Fedin and E. S. Kharichkin	246	26

ORGANIZATION AND ECONOMICS OF PRODUCTION

Determination of Rational Service Lives of Chemical Manufacturing Equipment - É. I. Shklovskii, É. P. Gil'man, and E. F. Saburov	249	28
A Procedure for Calculating Rates at Which Auxiliary Tools and Fixtures Are Consumed in Production - V. N. Milyutin, V. I. Solov'ev, and V. I. Taran	253	30

QUALITY, RELIABILITY, AND LIFETIME

Improved Quality of Friction Members in Valve Design through Optimization of Microcontour of Surfaces in Contact - Yu. G. Shneider, R. U. Nazirov, and M. S. Shmulovich	255	31
Investigation of the Effect of Wellhead Valve Nozzle Bore Shape on Their Wear Resistance - A. G. Gurbanov, B. M. Akhmedov, Kh. T. Kakhramanov, and Kh. M. Kuliev	259	33
Relation between the Electrochemical Characteristics of Copper-Nickel Hard-Facing Alloys and Their Wear Resistance in an Alkaline Medium - S. L. Milichenko and E. N. Matveishin	262	35

EXCHANGE OF EXPERIENCE

Construction of Equipment from Titanium Using Automatic Welding with Flux - E. F. Prutkin, L. N. Demenev, G. A. Kolobov, and V. I. Medovar.	265	36
Strengthening of Molds for Iron Castings in Investment Casting - I. D. Chmykh and L. I. Rappoport	267	37
Machine for Cutting the Ends of Springs - V. A. Selikhov and E. Z. Zverovshchikov ..	270	38
Introduction of Pulsed-Arc Welding for Thin-Walled Equipment Made of VT1-0 Alloy - V. T. Usenko	272	39

INFORMATION

Production of New Equipment	273	39
Contactless Electric Power Drive for Tire Building Machines - I. N. Markelov, Yu. V. Smirnov, and I. A. Gavrilov	275	40
Gas Flue of Row of Tubular Furnaces - V. V. Baturin	277	41
A Two-Stage Automatic-Throttling Safety Valve - B. T. Sitnikov, I. B. Matveev, and V. N. Denisov	279	41
Glass Fiber Collector/Distributors for Ion Exchange Vessels - A. S. Krasovitskii and R. V. Épfel'baum	282	43

BIBLIOGRAPHY

New Books	285	45
-----------------	-----	----

VOLUME 10, NUMBER 4, APRIL, 1974

Collaboration of Comecon Member Countries in the Field of Chemical-Machinery and Petroleum-Machinery Construction (On the occasion of Comecon's 25th anniversary) - G. O. Terzyan	291	1
---	-----	---

NEW MACHINERY AND EQUIPMENT

Type SNP-200 Reactor-Mixer Unit - A. I. Gladchenko	295	3
Newly Designed Intercoolers for 4M10-100/8 and 2M10-50/8 Compressors - B. V. Mishnin and E. S. Kallistov	297	3
Applications for Equipment with Electromagnetically Produced Turbulent Regions - V. V. Kafarov, D. D. Logvinenko, K. L. Tsantker, O. P. Shelyakov, and V. M. Oberemok	300	5
Endless Screw Pump for Varnish-Pouring Machine - V. N. Shul'gin	303	7

DESIGN AND CONSTRUCTION OF MACHINERY AND EQUIPMENT

A Study of the Stressed State of Spherical Bottoms of High Pressure Vessels in the Neck Zone - B. K. Sushkov, A. E. Kokhan, and A. N. Dukhovnyi	304	7
Study of Stresses in the Cup of the Rubber-Metal Plunger of Drilling Pumps - Ya. S. Mkrtychan and Yu. N. Chizhikov	307	9
Dampening Vibrations Caused by a Group of Horizontal Reciprocating Compressors - V. G. Podol'skii, S. I. Pilipenko, A. A. Brudno, and I. A. Katrikh	310	10
Hydraulic Characteristics of Cylindrical Return Flow Valves - V. D. Savel'ev and Yu. I. Taras'ev	313	12

INVESTIGATION AND CALCULATION OF THERMOPHYSICAL PROCESSES

Plate Heat Exchangers with Complex Shaped Heat Transfer Surfaces and Their Design - L. M. Kovalenko and Yu. G. Obolentsev	315	13
Apparatus with Vertical Contact Grids with Large Open Area, for Mass Transfer Processes - N. P. Bolgov, É. Ya. Tarat, M. F. Mikhalev, and N. I. Taganov ..	320	15
The Condensation of Nitrogen Vapor on the Surfaces of Vertical Tube Bundles - V. K. Orlov, V. I. Sukhov, and S. A. Shevyakova	323	17
Calculation of the Homogeneity of Pasty Mixtures Obtained in a Two-Blade Mixer with Reversible Worm - S. F. Khokhlov and I. I. Bagrintsev	326	18

NEW MATERIALS AND CORROSION CONTROL

KhN65MV Alloy for Chemical-Machinery Construction - G. I. Gerasimenko, I. M. Bogoslovskii, M. M. Abelev, V. F. Sokolova, and E. A. Afanasenko	328	19
Investigation of the Corrosion Resistance of Metals in Hydrogenation Processes with Chlorine- and Fluorine-Containing Catalysts - D. G. Kochergina and A. V. Shreider	330	21

PRODUCTION TECHNOLOGY

New Technological Process for Machining the Rotors of Artesian Well Pumps - B. I. Kogan	334	23
Soldering of Turbodetander Rotors for Air Separation Plant - N. S. Baranov, E. I. Storchai, G. S. Michudo, and V. N. Gashin	339	26
Calculation of Tool Feed for Strip Grinding of Bodies of Revolution without Copying Templates - F. S. Yunusov, Yu. Ya. Fel'dman, L. A. Kuznetsova, and A. F. Chamin	341	27
Analysis of Stick Movement during Dimensional Superfinishing - A. V. Grishkevich and V. N. Ovcharenko	344	29
Surface Strengthening of Type 20KhGNMA Steel by Impregnation with a Complex of the Elements C and Cr - K. T. Aliev and A. V. Evdokimov	346	30

NORMALIZATION AND STANDARDIZATION

Evaporator Condenser Standardization - V. I. Chirva, O. A. Golovchenko, L. M. Kovalenko, and E. M. Kovalev	349	31
Standardization of Glass Enamels for Chemical Equipment - G. I. Gorbunova, Z. I. Simkhovich, N. F. Babich, and M. I. Oleinik	350	32

QUALITY, RELIABILITY, AND LIFETIME

Reliability of Flanged Pipeline Connections with Teflon Packings - Yu. I. Pavlov and V. N. Antropov	352	33
Gas Testing of Delta-Seals of Various Materials for Hermeticity at High Pressures - V. I. Livshits, V. K. Pogodin, and A. D. Domashnev	355	34
Investigation of the Wear Resistance of the Rod Seals of Drilling Pumps - Ya. M. Kershenbaum, A. S. Lesin, V. N. Matveev, and V. V. Shishov	359	36

EXCHANGE OF EXPERIENCE

Improving the Quality of Steel Casting - A. A. Markov	362	38
Special Shop for Automatic Welding of Titanium Vessels Used in Chemical Equipment - V. K. Polevshchikov and V. M. Simakov	364	39
Inverted Drawing of Stainless Steel Parts - N. P. Galyan	366	40
Testing of Drills with Bent Cutting Edges - S. G. Bondarenko, V. K. Vasilyuk, and M. A. Volkodav	367	40

INFORMATION

Production of New Equipment	369	41
Check Valve - V. V. Oliferov and M. L. Smirnov	374	44
Laboratory Barrel Mill for the Preparation of Dross Suspensions - I. I. Rozinskii and É. Kh. Burdo	375	45
Determination of the Heat Resistance of Rubber Rings - N. P. Bykov, V. A. Kuz'min, and A. S. Motora	377	45

FOREIGN TECHNOLOGY

Technology of Machining Valve Parts - A. T. Serebryakov	378	46
---	-----	----

VOLUME 10, NUMBER 5, MAY, 1974

Let Us Raise the Level of Socialist Competition.	383	1
DESIGN AND CONSTRUCTION OF MACHINERY AND EQUIPMENT		
Designing Fired Furnace Tubes for Strength - B. Z. Abrosimov, V. G. D'yakov, Yu. L. Vikhman, S. I. Zusmanovskaya, Yu. S. Medvedev, I. E. Zeide, V. F. Gorlov, and V. P. Mishin.	387	4
Determination of Lateral Pressure Coefficients of a V-Shaped Seal of ANG Asbestos-Rubber Composition - R. S. Safarov, Kh. T. Kakhramanov, and S. A. Skvirskii.	391	5
How to Investigate the Strength of Links and Lugs on the Vane Rotating Mechanism in Large Axial-Flow Pumps - B. M. Eliseev and O. I. Kutra.	395	7
On the Pressure Profile of Piston Rings Thermally Stabilized on an Insert - V. N. Shishkin.	400	9
Calculating Optimum Rotor Dimensions of Scroll Centrifuges - S. V. Danilin and M. I. Il'in.	403	10
Calculation of the Optimum Tightness Value in a Multilayer Cylinder - P. G. Pimshtein.	407	12
INVESTIGATION AND CALCULATION OF THERMOCHEMICAL PROCESSES		
Dynamic Characteristics of the Heating Chamber of an Evaporator with Forced Liquid Circulation - V. G. Ponomarenko, Yu. N. Piskunov, and O. I. Krasnukhin.	409	13
Improving the Operational Reliability of Down-Comers in Plate Columns - V. M. Kostin and V. S. Chufarovskii.	413	15
Design of Efficient Coiled-Tube Heat Exchangers of Cryogenic Installations - Yu. V. Svetlov, V. Ya. Krasnosel'skii, and E. M. Sarmatova.	415	16
Multiconnected Systems for Automatic Stabilization of Temperature Regime in Regenerators of Air-Separating Units - V. P. Belyakov, A. P. Ermakov, and V. L. Semiletov.	420	19
"Packet" Mechanism for Mass Transfer between a Surface and Semifluidized Layer - V. M. Suprun.	423	21
NEW MATERIALS AND CORROSION CONTROL		
A New Nickel-Molybdenum Alloy Alloyed with Rhenium and Boron - G. I. Gerasimenko, B. A. Kardonov, A. P. Akshentseva, V. N. Nazarov, P. K. Podol'skii, N. S. Dem'yanenko, G. L. Shvarts, and L. S. Makarova.	426	22
The Corrosion Resistance of Certain Structural Materials Used in the Production of Polypropylene - O. M. Zvyagin, A. Kh. Tselidi, A. A. Karpov, N. G. Popov, and T. I. Kudryashova.	428	23
PRODUCTION TECHNOLOGY		
Fabrication of the Impellers of High-Pressure Centrifugal Pumps Using Ceramic Cores - Yu. G. Khmelev, V. F. Ushakov, and G. P. Kim.	431	26
Certification of Sighting Marks for Optical Monitoring of Axis Alignment of Recesses Cored out in Vessel Parts - E. M. Vainer.	433	27
Introduction of the Process for Removing Scale from Dished Vessel Bottoms Made from Kh18N10T Steel - L. G. Bogatkov, Yu. G. Tshiperson, and O. I. Lukina.	436	28
Enamel Coatings for Nonoxidative Heating of Stainless Steel Bottom Blanks - L. D. Svirskii, A. S. Es'kov, A. A. Karyuk, L. P. Kurochka, O. S. Serdyuchenko, V. G. Tyugin, V. A. Chernov, and I. A. Kashubov.	438	29
Effect of Deformation Strengthening and Heating on the Strength and Lifetime of 0Kh18N10T Steel in Making Multilayer Bellows - É. G. Glebova, G. Ya. Ostrin, O. B. Beloyartsev, V. E. Alekseev, S. A. Geppa, V. G. Kosyachenko, Yu. I. Taras'ev, and Yu. B. Chavshino.	441	30

NORMALIZATION AND STANDARDIZATION

- Industry-Level Standard for Twin-Screw Continuous Mixer-Reactors — A. M. Sobolev
and Yu. F. Pirogov 445 32

QUALITY, RELIABILITY, LIFE

- Increasing the Reliability of Main Shafts Used in 1G-266/320 and 2ShLK-1420
Compressors — S. G. Sokolov, V. N. Ovcharenko, V. G. Berestovskii,
V. M. Davydov, V. G. Adamenko, I. M. Radzin, L. A. Sosnovskii,
V. A. Pyshkin, and B. M. Gusev 446 33
- The Wear Resistance of Steels in Corrosive Media Containing an Abrasive
— V. M. Mikhlin, N. A. Adugina, G. E. Lazarev, and E. V. Lyalin. 450 35

EXCHANGE OF EXPERIENCE

- Machining of Thick Pipe Grills — L. A. Fomin 453 37
- Compound Piercing and Flanging Die — V. S. Perederil 455 38
- Use of Slavutich Wheel Truing Units in Machining of Drill Bit Parts — A. K. Baikalov,
A. I. Lukashkin, N. P. Dubovik, G. V. Blinkov, and O. Ya. Aizeman 457 38
- Method of Cooling the Broach when Cutting Keyways up to 1500 mm Long
— A. Yu. Averbukh and D. G. Lyakhovetskii 459 39

INFORMATION

- Manufacture of New Equipment 460 40
- Plastic Ball Valves for Use with Aggressive Liquids — L. Kh. Fel'dman,
Yu. P. Vakurin, and M. I. Gromyko 464 42
- Measuring Techniques for High-Pressure Membrane Compressors — S. M. Altukhov
and É. A. Levin 466 42
- Terminology in Cryogenic Engineering — I. L. Khodorkov 470 45
- Designing Springs for Vibrating Plates in Extractor Columns — M. Z. Maksimenko,
O. A. Zakirov, V. N. Maksimenko, and M. V. Kretinin 472 45
- Use of Cryogenic Treatment to Restore Worn Plug Gages — I. A. Revis,
A. M. Levinson, V. S. Naletov, and S. A. Popov 474 46
- From the Editorial Board 475 47

VOLUME 10, NUMBER 6, JUNE, 1974

- Let Us Give More Attention to the Economics Education of Workers — A. M. Apresov. . . . 479 1
- NEW MACHINES AND APPARATUS
- Improved Molding and Vulcanizing Press for Rubber Belts — E. I. Vinogradov. 483 3
- A Shockless Reversible Swing Valve — E. P. Zharkova and O. K. Savich 485 3
- DESIGN AND CONSTRUCTION OF MACHINERY AND EQUIPMENT
- Analysis of Stresses in a Spherical Convex Lid with a Nonrectangular Flange
— V. G. Tatarinov, R. M. Romanova, and A. V. Tasevich 486 4
- Deflector Rings for Centrifugal Pumps — V. Ya. Rubinov and B. V. Pokrovskii 490 6
- Design and Experimental Study of Stages in Well Pumps — A. I. Dyagilev, N. V. Smutin,
and V. P. Negrebetskii 493 8
- Effect of Resistance of Supply and Take-Off Pipelines on Transmitting Ability of Safety
Valves — Yu. I. Taras'ev and V. N. Mamontov 497 10
- INVESTIGATION AND CALCULATION OF THERMOCHEMICAL PROCESSES
- Investigation of the Filtration Processes in FGP Centrifuges — V. P. Sibirko,
I. N. Mukhin, and S. I. Dedikov 499 11
- Gas Content in Apparatus with Mechanical Stirring at High Power Consumptions
— A. M. Tsirlin, V. N. Trushanov, G. Ya. Khodov, and R. A. Rabinovich 503 13
- Determination of True Vapor Content in Two-Phase Flow of Oxygen and Nitrogen in
Vertical Passages — V. E. Poznyak, V. K. Orlov, G. G. Bartolomei,
and Yu. V. Kharitonov 506 15

Fractional Composition of Catalyst in Spray Drying of Aluminosilicagel Suspension — M. Ya. Moroshkin, V. N. Smolin, V. F. Klaptsov, and Ya. I. Min'kovskii	510	17
Investigation of the Contact between Phases in an Impinged Layer — V. B. Kvasha and V. V. Chizhov	512	18
NEW MATERIALS AND CORROSION CONTROL		
Corrosion Resistance of Metals during Production of Butyl Alcohols by the Oxo Synthesis — Yu. I. Archakov and O. P. Merkulova	516	20
Corrosion Resistance of Structural Materials in Acetate Buffer Solution — Yu. I. Perin, R. A. Valieva, G. E. Kuznetsova, and V. P. Evstigneeva	519	21
PRODUCTION TECHNOLOGY		
Reducing the Porosity of Welds Made after Edge Preparation by Air-Plasma Cutting — L. O. Kokhlikyan, K. V. Vasil'ev, and A. S. Bychkov	521	22
Manual Argon Arc-Welding of Silver Pipelines — A. F. Batakshev, S. N. Berezhnitskii, and G. P. Kucherenko	525	24
Effect of Forging Method on the Structure and Mechanical Properties of Large Separator Rotor Forgings Made from Kh16N6-Sh Steel — V. D. Zhdanov and A. L. Belinkii . .	528	26
Rolling of Precision Thread on High-Strength Pipes — A. F. Chamin, P. N. Komarov, and Yu. Ya. Fel'dman	531	28
NORMALIZATION AND STANDARDIZATION		
Classification of Products in Machinery Construction (A Discussion) — B. G. Ionov and V. M. Meshkov	534	29
QUALITY, RELIABILITY, LIFE		
Improving the Durability of the Roller Bearing for Drill Bit Supports — Ya. M. Kershenbaum, Ya. A. Kaminskii, and M. A. Amdur	537	30
Increasing the Efficiency of Dry Slippage Friction Units by Antiscoring Shaping — A. S. Rodichev	539	31
EXCHANGE OF EXPERIENCE		
Cold Die Forging of Parts for Pipeline Accessories — B. I. Onikienko	541	33
Apparatus for Semiautomatic Welding of Tube Grids to Heat-Exchanger Frames and Outlet Flanges — G. M. Gershonzon and R. A. Idiatulin	543	34
Apparatus for Automatic Feed of Blanks into the Heating Zone — A. A. Lobanov	545	35
Milling Fixture for Housing Parts — G. G. Nikiforov and A. I. Kolmogortsev	547	36
INFORMATION		
New Equipment	549	37
The Second-All Union Conference on Methods and Devices for Checking the Hermeticity of Equipment and Joints — S. G. Sazhin	554	39
Rules for Layout and Safe Operation of Piston Compressors which Operate with Explosive or Toxic Gases — A. V. Efimov, G. G. Smirnov, B. I. Dumov, and A. A. Il'chenko	557	41
Static Balancing of Pump Wheels on Machines with Air Cushions — B. P. Mishin and E. I. Spektor	559	42
Bracket for the MMU-3 Microscope for the Inspection of Equipment under Working Conditions — V. A. Levchenko, V. A. Borisenko, A. F. Sokolov, and A. V. Lopin . .	562	43
Papers Submitted and Deposited at TsINTIkhimneftemash	563	44
BOOK REVIEWS		
New Books on Chemical Engineering	564	44

VOLUME 10, NUMBER 7, JULY, 1974

Let Us Accelerate the Rate of Technical Progress in the Branch — L. S. Glikman . . .	571	1
NEW MACHINERY AND EQUIPMENT		
Sea Water Cooled Steam-Water Ejector Refrigeration Units — M. A. Sil'man	576	4
Equipment for Crushing Worn Tires — T. M. Kozodaeva	579	5

DESIGN OF MACHINES AND EQUIPMENT

Design of Rotors Used in Reactors with Sealed-Drive Propeller Mixers — V. M. Baranovskii, A. I. Mil'chenko, and N. E. Vishnevskii.	582	6
Investigation of Reliability of Coated Components of Steel Reactor Vessels — R. V. Tolstopyatov and O. P. Smishchenko.	588	9
Boundary Stresses in the Thread Joints of Glazed Compressor Tubing during Making Up with Elastic Tension — A. G. Kan, E. E. Bochenov, and B. N. Dudko.	590	11
Construction of Equipment for Transverse Orientation and Thermofixation of Flat Polymeric Films — A. B. Lerner, S. I. Gdalin, and V. V. Sharonov.	593	12

INVESTIGATION AND CALCULATION OF THERMOPHYSICAL PROCESSES

Hydraulic Resistance of Packed Columns with Rising Cocurrent Flow — A. Yu. Beisenbaev, A. V. Solov'ev, and A. N. Planovskii.	599	15
Heat Transfer in Interpipe Space in Heat Exchanger with Helically Ribbed Pipes — A. D. Suslov and N. I. Frolova.	602	17
Evaluation of the Radius of the Turbulent Zone in Low Viscosity Liquids in Mechanical Mixers — N. I. Gel'perin, I. N. Karasaev and A. S. Gzovskii.	604	18
Investigation of the Distribution of Components in a Crude-Argon Column of an Air-Fractionating Unit with Regenerators — V. P. Alekseev, N. I. Davydov, A. F. Poberezkin, B. B. Kleinerman, and L. B. Lebedev.	606	19
Determining the Magnitude and Direction of the Flight Path of Particles of Materials from the Working Elements of Centrifugal Vortex Mills — F. A. Gulyaev, G. P. Kovalenko, V. I. Maiboroda, and A. V. Vasil'ev.	609	20

NEW MATERIALS AND CORROSION CONTROL

Phenolite K-214-52 RST as a Material of Construction for Chemical Equipment — A. V. Nosov.	614	22
Corrosion Resistance of Stainless Steels in Wide-Cut Synthetic Fatty Acids — G. I. Tveritinov, V. V. Knyazev, and V. A. Chikov.	616	23
Corrosion Cracking of 18-10 Stainless Steels in Sea Water with Additions of Sulfuric Acid — G. I. Agapov, F. K. Lukashina, E. B. Antipin, G. S. Drugova, V. A. Bodnya, and V. M. Kuranov.	618	24

EQUIPMENT MANUFACTURING TECHNOLOGY

Manufacture of Finned Tubes by Unshielded-Arc Welding — A. F. Kolobov.	621	26
Subzero-Temperature Investigation of the Impact Strength of 09G2S-Steel Weld Joints Made in Gaseous Carbon Dioxide — V. N. Pozdeev and Yu. A. Chernov.	624	27
Production of Die Patterns with Thin Elements by the Electrospark Broaching Method — L. M. Voronenko, B. M. Petrov, Yu. Z. Zvonkin, V. P. Terenin, and A. P. Aksenov.	625	27
Methods and Instruments for Measuring and Inspecting Petrochemical Equipment — M. A. Gaskel', V. P. Novikov, and T. A. Luk'yanenko.	627	28
Increasing the Strength of Gray Irons — Yu. N. Chentsov, G. P. Kim, A. I. Tsymlov, Yu. T. Ivanchukov, and V. N. Panferov.	631	30

NORMALIZATION AND STANDARDIZATION

Standardization of Forgings of Corrosion-Resistant Steels for Chemical and Petroleum Equipment — B. N. Shevelkin, M. A. Chuma, V. D. Zhdanov, and L. L. Kravchenko.	633	31
Standard Technical Specification for Loop Expansion Pieces — Yu. I. Berliner and V. S. Baranova.	635	32

ORGANIZATION AND ECONOMICS OF PRODUCTION

Implementation of the Norm Method of Production Cost Accounting at the V. I. Lenin Bobruisk Machine Works — Ya. S. Mikheles.	637	33
Calculation of Technically Based Norms of Fuel Consumption in Mechanical Engineering Plants of the Petroleum Industry — M. A. Babaev, N. I. Rozovskii and K. I. Tarkhanov.	641	35

QUALITY, RELIABILITY, AND LIFETIME

Improvement in the Performance and Reliability of Spraying Equipment — V. M. Luk'yanenko, B. V. Popov, and V. A. Didenko	644	36
Wear Resistance of Materials during Friction in Corrosive Media — G. E. Lazarev	647	38

EXCHANGE OF EXPERIENCE

Die Casting of Steam and Water Fittings from Non-Ferrous Alloys — D. Ya. Ligun	650	39
Hydraulic-Spring Type Adjustable Milling Fixtures for Large Parts — V. I. Avdeev, V. A. Stepanov, and V. V. Mel'nikov	652	40
Tilting Stand for Assembly of Pumps — M. D. Shein and A. A. Lobanov	654	41
Side-and-Face Cutter for Milling Slots in Rotary Machine Drums — G. A. Kalinin.	655	41

INFORMATION

New Vibratory-Pulsating Centrifuge for Separating Suspensions — V. S. Kaminskii, A. V. Shlau, V. I. Asner, G. P. Klochko, Yu. N. Borisyuk, B. S. Sats, and V. A. Trofimov	656	42
New System of Cooling Temperature- and Pressure-Gauge Testing Chambers — A. S. Burlak, F. I. Davydov, V. F. Kovalev, and S. F. Varzar	659	43
Improvement of the Efficiency of Roller-Type Masticating Machines — L. A. Yakovlev, A. M. Voskresenskii, V. N. Krasovskii, and R. G. Mirzoev	662	44

FOREIGN TECHNOLOGY

Modern Trends in Design of Stationary Joint Seals — V. V. Burenin.	664	45
---	-----	----

VOLUME 10, NUMBER 8, AUGUST, 1974

FOURTH ALL-UNION CONFERENCE ON COMPRESSOR CONSTRUCTION

Status and Development of Compressor Construction in the Current Five-Year Plan — S. G. Sokolov, V. D. Vasil'ev, and I. A. Kovalev	671	1
Construction of Turbo Compressors — F. S. Rekestin, K. P. Seleznev, A. P. Tarabrin, and V. B. Shnepp	674	2
Rotational (Rotary) Compressors — V. D. Lubenets, I. A. Sakun, L. T. Karaganov, and V. V. Malyushenko.	678	5
Piston Compressors — T. F. Kondrat'eva, Yu. A. Vidyakin, and P. I. Plastinin.	680	5
Electric Powered Piston Compressors — G. I. Pavlenko, D. V. Murikov and I. F. Bitsan	683	7
Gas Bearings for Compressors — S. V. Pinegin, L. G. Stepanyants, and G. A. Pospelov	685	8
Planning in Compressor Engineering — L. S. Evko and Yu. V. Steshenko	687	9

CONSTRUCTION, INVESTIGATION, AND CALCULATION OF COMPRESSOR MACHINES

Determination of the Indicator Horsepower of a Rotary Oil-Filled Compressor — I. S. Bodik, G. V. Lysenko, and A. E. Sokolov	689	10
Friction in the Sleeve Packing of the Plunger in a High-Pressure Hydraulic Compressor — E. V. Polyakov, Yu. S. Konyaev, and Academician L. F. Vereshchagin	693	12
Use of Titanium Valve Plates in High-Pressure Gas Compressors — Yu. K. Zaikin, É. A. Filippova, G. L. Panasenkov, and N. A. Kochetov	696	13
Analysis of the Metallic Structure of Valve Plates of Refrigeration Compressors — O. V. Muratov, S. U. Kivenzor, A. A. Khanonkin and A. A. Yakovlev	699	15
Forming Piston Rings of Small Diameter — V. N. Shishkin.	701	16
Behavior of Molybdenum Disulfide during the Thermal Treatment of Piston Ring Material of AFGM Composition — L. A. Mashkovich, L. B. Khrisanova, V. D. Telegin, A. F. Kuteinikov, L. A. Dronseiko, and V. D. Belogorskii.	703	17
Piston Rings Made of Thermoplastic Materials — N. Ya. Radchenko, D. M. Krymskii, and I. V. Kalinnikov	706	19
Increase in Wear Resistance and Fatigue Strength of Compressor Crankshaft Journals — É. Kh. Roitershtein, G. F. Dal', and Yu. A. Fedoseev	708	20
The Reconstruction of Piston Rod Linkages of Large Reciprocating Compressors — Yu. I. Smirnov and T. N. Aizenberg	712	21

The Effect of Roughness of the Channels of Low-Output Centrifugal Compressors on Their Performance — A. B. Barenboim, É. A. Vasil'tsov, and V. F. Zelenovskii	715	23
Wear Resistance of Rubbing Parts of Hermetic Rotary Compressors as a Function of the Surface Microrelief — Yu. G. Schneider, Ya. V. Guzik, and A. É. Aliev	718	24
Soldered Low-Alloy Steel Impellers for Centrifugal Compressors — V. N. Radzievskii, S. N. Lotsmanov, and V. I. Ryamar'	722	26
Ways to Reduce Development Time for New Compressor Units — A. G. Kats and L. A. Gershbaum	725	28
Self-Propelled Compressor Stations for the Petroleum Industry — A. D. Arkhipov and A. F. Mishchenko	728	29
EQUIPMENT MANUFACTURING TECHNOLOGY		
Surface Plasma-Arc Cutting of Stainless Steel — A. N. Briskman, N. N. Patynka, A. S. Sal'nikov, I. S. Shapiro, B. D. Beider, E. P. Kharitonov, and A. A. Budakov	730	30
Soldering Technology in a Protective Atmosphere in the Fabrication of Mold Tread Patterns — L. M. Voronenko, B. M. Petrov, G. I. Vovnenko, and V. A. Ezhov . .	732	31
Choosing Fluxes for Lead-Plating Parts of Carbon Steel — V. Yu. Yurchenko, A. I. Vitkin, and V. D. Rashevskii	735	32
Protecting the Inner Surface of Steel Tubes with a Polyethylene Lining — Yu. E. Lobanov, G. A. Pastukhova, and A. L. Shterenzon	737	33
EXCHANGE OF EXPERIENCE		
Coil Mounting Fixture — V. A. Polushkin	739	34
New Machine Tool Knurls Seal Grooves — M. I. Zakryatin	740	35
A Programmed Crane Stacker — A. A. Dovgopol, P. M. Kornienko, N. P. Ryabets, and E. K. Turut'ko	742	36
Making Plastic Press-Forms for Precision Casting — I. D. Chmykh	744	37
INFORMATION		
Diaphragm Compressor — V. V. Konsetov and N. A. Lebedev	746	37
New Equipment Designed for Making High Boots — O. D. Petrov and I. P. Matyukhin . .	749	39
Furnace for Calcinating Catalysts in a Fluidized Bed — E. I. Burshtein and T. B. Borzdaya	752	40
Valveless Helium Expansion Engine with Piston Sealed by Friction Members — V. M. Dobrov and A. V. Belonogov	754	41
Metal Sleeves — V. S. Grigor'ev, Yu. P. Davydov, F. E. Niskina, Yu. N. Svistunov, and M. V. Smorodin	757	43
BOOK REVIEWS		
New Books	759	44

VOLUME 10, NUMBER 9, SEPTEMBER, 1974

Socialist Competition. A New Method for the Organization of Labor and Production at the "Uralkhimmash" Plant — V. M. Makarov	765	1
NEW MACHINERY AND EQUIPMENT		
FMB-Type Multistage Filters with a Paper Band for Efficient Cleaning of Coolants-Lubricants — M. Ya. Meshengisser, G. G. Kotlyarov, and A. A. Nakonechnyi	770	4
ANR-700 Pump Aggregate — R. I. Gadzhiev	772	5
Determination of Optimum Height of Ribs in Ribbed Laminated Heat Exchangers — V. F. Podgornyi and T. V. Yasnogorodskaya	774	5
Application in Petrochemical Plant for Loop-Shaped Expansion Pieces of New Materials — F. G. Maksimova, A. V. Shreider, and V. G. Dyakov	776	6
Investigation of Frictional Heating from Seals of Piston Pumps for Cryogenics — E. A. Kudryavtsev and E. N. Smirnov	778	7

Power Losses in Turbine Pumps — V. M. Ryazantsev	780	8
INVESTIGATION AND CALCULATION OF THERMOPHYSICAL PROCESSES		
Evaluation of Fluidized Bed Granulator for Carboammophosphate — N. A. Shakhova and I. G. Grishaev	783	10
Characteristics of Asymmetrical Hinged Stirrers — I. I. Bortnikov and I. S. Pavlushenko	785	11
Selection of Apparatus for Cooling Dusty Gases — F. E. Dubinskaya and A. Yu. Val'dberg	789	13
Gas Distribution in Multisection Horizontal Fluidized Bed — I. I. Shishko, A. V. Govorkov, and A. P. Baskakov	791	14
Power Consumption in Mixing Individual Liquids and Solutions in Boxed Mixers — N. I. Gel'perin, V. L. Pebalk, B. G. Varfolomeev, and N. A. Rabinovich ..	794	16
The Corrosion of Stainless Steels under Evaporator Conditions during the Concentration of Ammonium Sulfate Solution — A. N. Lebedev, V. A. Blinova, Yu. N. Dulepov, G. P. Baranov, and Yu. P. Surkov	797	18
Influence of Hardness of Stainless Steels and Alloys on Corrosion and Erosion Resistance in Sulfuric Acid Media — N. A. Adugina, M. M. Kristal', and G. E. Lazarev	801	20
EQUIPMENT MANUFACTURING TECHNOLOGY		
A New Method of Laying Out Column Apparatus Using a Laser — Yu. I. Neretin, A. M. Pokrovskii, V. M. Davydushkin, G. P. Tkachenko, and V. A. Samoilov ..	803	21
Forging of Thick-Walled End Plates with Minimum Reduction in Wall Thickness — V. P. Luk'yanov and I. V. Berezin	807	23
An Improvement in the Technology of Casting Articles which Operate under Pressure — A. V. Borodin, N. P. Dolgikh, and M. A. Glukhovskii	809	24
Effect of Temperature on the Mechanical Properties of Gray Cast Iron for Enameling — V. V. Dubrov and Yu. A. Dudnik	811	25
NORMALIZATION AND STANDARDIZATION		
RTM 26-01-52-70 Inspection Methods for Welded Joints of High Pressure Vessels. Classification of Defects — V. I. Etingov and R. R. Chemrukova	815	27
ORGANIZATION AND ECONOMICS OF PRODUCTION		
Use of Path Analysis Method and Assembly Cyclograph in Planning and Organization of Manufacture of Complex Components — F. D. Shor	817	28
QUALITY, RELIABILITY, AND LIFETIME		
Analysis of Effects of Production Operation on Accuracy of Drill Cutters — A. A. Guseinov, G. V. Safarov, and A. A. Babaeva	821	31
Preparation of Wear-Resistant Sealing Surfaces for Pipeline Equipment — N. V. Podola and Yu. I. Lyudvig	825	33
Wear-Resistance of Composite Alloys in a Medium of Rubber Regenerate — M. N. Gapchenko and Yu. D. Myshko	828	35
EXCHANGE OF EXPERIENCE		
Unit for Automatic Welding of Cylinders and Covers — V. V. Erokhin	832	37
Semiautomatic Unit for Corrosion Proofing of Fittings — E. B. Orlov and V. Kh. Fridman	834	38
Turret Lathe Redesigned for Simultaneous Milling of Two Parallel Surfaces of Small Pump Casing Parts — Yu. I. Grachev	836	38
Washing Machines — A. M. Shumikhin	837	39
INFORMATION		
The UPK-2000P System for Transport and Rewinding of KRBK Cable — Yu. A. Adamov	840	40
A Programmed Tallying and Metering Device — O. V. Lyubomirskii, L. S. Lyubomirskaya, and V. V. Solodchenko	842	40

Modernization of a Vacuum-Evaporator Setup for Concentrating a Titanyl Sulfate Solution in the Production of Pigment Titanium Dioxide — N. N. Nuzha, E. P. Novikov, and N. Ya. Danilin	844	42
Specimens for Complex Investigations of Properties of Metals — V. D. Zhdanov and B. N. Shevelkin	846	43
Effect of Chemical Composition on the Hardness of Steel 10Kh13L After Heat Treatment — N. V. Shestakova and G. M. Ogorodnikova	848	44
FROM FOREIGN TECHNOLOGY		
Reactors for the Production of High Pressure Polyethylene (Review of Foreign Patents) — V. L. Moroz, S. Z. Lozovskii, and K. M. Aleksandrova	850	45
VOLUME 10, NUMBER 10, OCTOBER, 1974		
For Successful Fulfillment of the Five-Year Plan's Targets — V. M. Luk'yanenko. . .	859	1
NEW MACHINERY AND EQUIPMENT		
Mechanisms for Folding and Loading Semifinished Inner Tubes — A. G. Posternak, V. P. Opanasyuk, V. F. Rozhkov, N. A. Efremova, and S. I. Pryakhin	863	3
DESIGN AND CONSTRUCTION OF MACHINERY AND EQUIPMENT		
Procedure for Design Calculation of Cantilevered Shafts in Equipment with Mixing Devices — G. I. Fedenko	866	4
Strength Calculation for Bowl of FMB-633-K1 Centrifugal Filter — A. I. Solov'ev and E. G. Isarov.	870	6
Design of Plate Heat Exchangers Using the Available Pressure Drop — V. A. Zagrebin and V. V. Repnitskii	874	9
Measurement of Temperatures of Main Parts of Two-Stage Oil-Filled Blade Compressors — I. S. Bodik and A. E. Sokolov	877	10
A New Method of Measuring Leakage in End Seals — R. V. Fishkin and A. D. Domashnev	879	11
Classification of Safety Valves — I. S. Grinberg and I. R. Krichker	881	12
INVESTIGATION AND CALCULATION OF THERMOPHYSICAL PROCESSES		
Pneumohydraulic Pulsation Extractor with U-Shaped Arrangement of the Vessels — V. V. Kafarov, V. G. Vygon, G. A. Mikheeva, and V. A. Rudakov.	886	15
Investigation of Heat Transfer and Hydraulic Resistance of a Spiral Heat Exchanger — L. M. Kovalenko and L. V. Oleinik	893	19
Investigation of Heat Transfer and Hydraulic Resistance in Triangular Pitch Bundles of Studded Tubes — A. S. Lyshevskii, L. Ya. Shkret, A. A. Kutukov, F. A. Gogel'gants, and V. G. Sokolov	895	20
Investigation of Velocity and Pressure Zones in SDK-TsN-33 and SK-TsN-34 Cyclones — A. A. Petrov	898	21
NEW MATERIALS AND CORROSION CONTROL		
Corrosion Resistance of AS-43Nickel-FreeChromium-Manganese Steel in Nitric Acid Media — A. L. Sotnichenko, G. I. Agapov, and V. S. Yarkovoi	901	23
Steam-Resistant Coatings for Corrosion Protection of Gasoline Tanks — V. V. Knyazev, R. F. Nizamidov, G. I. Tveritinov, and M. A. Mursalimov	903	24
EQUIPMENT MANUFACTURING TECHNOLOGY		
Nickel—Chromium—Molybdenum Alloy Electrowelded Tubes and Duplex Metal for Chemical Equipment — M. M. Abelev, I. M. Vogoslovskii, A. P. Baryshev, V. P. Logvinov, and G. L. Shvarts.	905	25
Determination of Ferrite-Phase Content of Welded Joints of Austenitic Steels Carried out by Automatic Welding — A. F. Kolobov and V. A. Neshaeve	908	26
Investigation of the Bonding System between the Steel and Coating in the Lead-Cladding of Chemical Plant — V. Yu. Yurchenko, A. I. Vitkin, D. G. Nikitin, and L. V. Shiryayeva	910	27

Modern Fabrication Technology for Casting Parts of Submerged Electric Motors — I. D. Chmykh and L. I. Rappoport	913	28
Use of Spent Molding Mixtures in the Production of Liquid Self-Hardening Molding Mixtures — A. A. Markov and G. G. Blinov	915	29
ORGANIZATION AND ECONOMICS OF PRODUCTION		
Construction of a Schedule Graph for Loading of Equipment in Machinery Construction Plant with Single-Item or Small-Lot Production — V. E. Golubtsov	917	29
QUALITY, RELIABILITY, AND LIFETIME		
Analysis of Reliability and Life of Type AVG Aerial Coolers — S. G. Mustaev and V. M. Shmerkovich	921	32
Dependence of the Reliability of an Exhaust Vacuum System on its Operation Regime — M. G. Shakirov, F. D. Putilovskii, and V. V. Medvedev	924	33
Reduction of Errors in the Hot Milling of Gears — G. K. Mikryukov	928	35
EXCHANGE OF EXPERIENCE		
Semiautomatic Device for Measuring Bearing Bushings — A. P. Nosov and A. S. Malyukov	931	37
Attachment for TS-17Mu Welding Tractor — V. P. Tikhonov	933	38
Sheet-Bending Machine with Cantilevered Rolls — I. A. Goryunov	935	38
Protective Properties of Electroplated Coatings on Liners for Deep-Wall Pumps — F. M. Éfendiev and É. R. Agaverdieva	936	39
INFORMATION		
Investigation of Cylindrical Centrifuge with Selfcleaning Rotor — Zh. G. Pustyl'nikova, . .	938	40
Type SND-900 Continuous Ribbon Mixer for Toxic Chemicals — Z. A. Fomenko, G. I. Orlov, and A. S. Sladkov	940	41
Mechanized High Productivity Type KhPRT 12-28 Mill for Cold Rolling of Aerial Cooler Finned Tubes — V. N. Klimov, V. A. Samoilov, A. V. Batyrev, G. M. Bulasov, V. I. Karamyshev, L. F. Potekhin, and V. S. Shipilin	942	41
Centrifugal Mechanisms Using Hydrostatic Bearings for Rotating Shaft Support — D. G. Pazhi	945	43
Programming Design of Centrifugal Well (Vertical) Pumps — Yu. A. Borodaev	949	45
Removal of Sulfate Deposits from Heat-Transfer Surfaces — Yu. N. Dulepov, Yu. G. Chernyshev, V. G. Shatsillo, V. D. Slutskii, Z. I. Sholomova, and P. M. Shalyapin	950	45
FROM FOREIGN TECHNOLOGY		
Use of Carbon Fibers for Packings — A. I. Golubev, E. K. Sterlyadkina, and Ya. Z. Gaft	952	46

VOLUME 10, NUMBER 11, NOVEMBER, 1974

Fifty-Seventh Anniversary of the Great October Socialist Revolution	957	1
TWENTY-FIFTH ANNIVERSARY OF THE IRKUTSK SCIENTIFIC-RESEARCH AND DESIGN INSTITUTE FOR CHEMICAL-MACHINERY CONSTRUCTION		
The Irkutsk Scientific-Research and Design Institute for Chemical-Machinery Construction is 25 Years Old — V. G. Usenko	962	4
Implementing New High-Pressure Vessel Fabrication Technology — E. R. Khismatulin . .	966	6
Development of Large-Scale Production Equipment for the Microbiological Industry — V. I. Boiko and E. L. Mikhailov	971	9
DESIGN AND CONSTRUCTION OF MACHINERY AND EQUIPMENT		
Evaluation of the Fatigue Resistance of Pipelines in Air-Separation Installations — N. V. Filin, E. P. Kudryavtsev, B. A. Kuranov, and V. M. Muratov	974	10
Reliability of Welded T-Joints in Pipes — A. V. Yakup	978	12

Assessment of Leak Tightness of Heat Exchangers Made of Blocks of Plates — L. P. Pertsev, A. K. Klimishen, V. I. Cheremskaya, and V. E. Nagornyi	980 13
Potential Meridial Flow in Rotors of Stationary Compressors — Yu. B. Galerkin	982 14
INVESTIGATION AND CALCULATION OF THERMOCHEMICAL PROCESSES	
Technical Evaluation of Alluvium Layer in Drum Vacuum Filters — V. P. Abramov	985 16
Removing Small Concentrations of Nitrogen from High-Pressure Hydrogen by Adsorption — A. V. Belonogov and O. K. Tabunshchivoka	990 19
Power Used by Multistage Open Type Turbine Mixers in Extractive Phosphoric Acid Production Reactors — N. I. Gel'perin, I. N. Karasev, and A. S. Gzovskii	993 20
Operation of Swirl-Repulsion Classifiers for Finely Dispersed Materials — B. N. Fastov, V. N. Lebedev, and P. F. Valuiskii	996 22
NEW MATERIALS AND CORROSION CONTROL	
Effect of Niobium on the Structure and Properties of Centrifugally Cast Pipe of Steel Kh20N35 — Kh. I. Cheskis, G. I. Maslova, and D. G. Begma	998 23
Tests of Preservation Media Using Volatile and Contact Inhibitors — L. G. Bogatkov and V. M. Trubitskov	1001 25
EQUIPMENT MANUFACTURING TECHNOLOGY	
Production of Impellers for Ceramic Centrifugal Pumps — N. P. Sytnik, A. V. Babich, A. A. Voloshchenko, and V. S. Maslennikov	1003 26
Cutting Small Holes Using the "KVANT-9" Apparatus — G. F. Shein, V. A. Bobrus', A. I. Zinkin, N. V. Poleshchenko, and N. T. Chechukov	1005 27
Lapping of the Sealing Surfaces of Gate-Valve Wedges and Frames by Means of Inertial Vibrators — A. T. Ezhov	1008 28
A Study of the Process of Lapping Conical Surfaces — S. G. Babaev, P. G. Sadygov, Sh. R. Ruvinov, N. A. Izetov, and L. F. Aliev	1011 29
Interaction of Some Filler Metals with Stable Austenitic Steels Used in Cryogenic Equipment — A. V. Sokolova, E. I. Storchai, A. S. Bychkov, and Yu. G. Tokarev	1014 31
ORGANIZATION AND ECONOMICS OF PRODUCTION	
Scientific Achievements in Industry — K. S. Zlobina	1016 32
Introduction of Automated Management Control Systems at the Enterprises of the Azneftprommash Group — K. V. Zemskii	1019 34
QUALITY, RELIABILITY, AND LIFETIME	
Improving the Reliability of Centrifuge Automation Systems — A. E. Kuzyakov and B. V. Kolosovskii	1022 35
Procedure and Some Results of Laboratory Tests on Wear of Metallic Parts of Drill Pump Valves — Ya. S. Mkrtychan, S. P. Gerzha, and V. I. Shlykov	1027 37
Improvement of the Wear Resistance of Threaded Friction Pairs in Fittings — I. E. Stepanova, V. A. Solov'ev, and A. N. Shpakov	1031 39
EXCHANGE OF EXPERIENCE	
Technology of Finish Treatment of the Inner Surface of Film Evaporators — I. A. Goryunov and G. P. Anoshchenkov	1034 41
Repair of Chemical Equipment Which Operates at Variable Temperatures and High Pressures — S. K. Pavlyuk, I. M. Kuzmenko, V. I. Krolovetskii, and V. G. Tkachenko	1035 42
Centralized System for Supplying Argon to Production Shops — G. V. Dan'shin	1038 43
Rectification of T-Slots in Slides without Dismantling the Press — V. A. Emel'yanov .	1040 44
Improved Technology of Casting Magnetic Cores in Metal Shells — I. D. Chmykh and G. M. Rypalo	1041 44
INFORMATION	
Device for Investigating the Sealing Mechanism of Vacuum Joints — S. N. Filatov, A. D. Domashnev, and S. V. Varnakov	1043 45

Couplings for High Pressure Test Equipment — F. G. Rzaev and L. E. Lizard	1046	46
Calculating the Composition of Liquid Recipes for Preparing Self-Hardening Liquid Mixtures — E. V. Shtyrenkov, and V. M. Yaushev	1048	47

VOLUME 10, NUMBER 12, DECEMBER, 1974

Socialist Competition and New Methods of Labor and Production Organization at the "Progress" Berdichev Plant — A. A. Shabel'nik	1051	1
Let Every Employee Have a Communist Attitude toward Labor — A. G. Karavaev. . .	1056	4
DESIGN AND CONSTRUCTION OF MACHINERY AND EQUIPMENT		
Calculation of Stresses and Contact Pressure in a Shell Carrying a Supporting Bandage — A. D. Murskii.	1059	5
Selecting the Best Expansion Joint Arrangement in Forced Circulation Evaporator Circuits — V. I. Leverash and L. A. Krasnyanskii.	1064	8
Design of Sleeve Packing for the Plunger of a High-Pressure Hydraulic Compressor — E. V. Polyakov, Yu. S. Konyaev, and L. F. Vereshchagin.	1066	9
INVESTIGATION AND CALCULATION OF THERMOCHEMICAL PROCESSES		
Film Fractionation of Air in Apparatus with a Regular Crimped Packing — V. P. Alekseev, P. V. Gerasimov, and A. É. Poberezkin	1070	11
Determination of the Conditions for the Start of Surface Boiling of a Cryogenic Liquid — V. G. Pron'ko, L. P. Shevchenko, and B. G. Baranov.	1074	12
Determining Power Required by Agitators in Bubble Contactors — A. M. Tsirlin, R. A. Rabinovich, V. N. Trushanov, and G. Ya. Khodov	1076	13
Pressure Drop in a Dynamic Draining Tube as Function of Design and Working Regime — V. G. Anfilov, V. A. Yurchenko, G. S. Pogosov, and S. G. Starodub.	1079	15
NEW MATERIALS AND CORROSION CONTROL		
Chemical Resistance and Wear Resistance of Antifriction Material Khimanit-T — G. E. Lazarev, V. D. Shipilov, Yu. P. Zhurid, and A. M. Zlatkis	1082	17
Character of Corrosion Failure in Welded Joints of Commercially Pure Aluminum — R. S. Luchkin	1084	18
EQUIPMENT MANUFACTURING TECHNOLOGY		
The Effect of Various Factors on the Nature of the Drawing Process and Quality of End Plates — Yu. I. Kozlov	1086	19
Accuracy of Remote-Controlled Inspection Instruments Used for Housings of Centrifugal Pumps and Compressors — E. M. Vainer.	1089	20
Selecting Powder Exit Hole Diameter in Suspension Casting — I. E. Pisarev, V. N. Panferov, and F. A. Tyukin	1092	22
Centralized System for the Hire of Rock-Crushing Tools — M. G. Abramson, M. A. Aleksandrov, and V. G. Dinzbarg	1094	23
Main Directions of the Long-Term Development of Forging and Drop Forging at the Minkhimmash Plants — R. G. Manilovskii and E. P. Subbotin	1098	25
QUALITY, RELIABILITY, AND LIFETIME		
Efforts to Improve Centrifuge Quality at the M. V. Frunze Machinery Factory in Sumy — V. M. Luk'yanenko, B. V. Popov, and A. E. Kuzyakov	1101	26
The Effect of Lubricating and Cooling Fluids on Friction in End Seals — A. D. Domashnev and M. T. Bannikov	1105	28
Investigations of the Wear Resistance of Type 2Kh13 Steel Fused on to the Sealing Surfaces of Fittings — A. S. Slepokurov, A. A. Dan'kin, and V. I. Grishin	1107	30
EXCHANGE OF EXPERIENCE		
Device for Accurate Marking of Herringbone Gears — É. M. Sultan-Zade and V. I. Penbek	1110	31
Reducing Rejections of Tin Bronze Castings Used in the Pump Industry — A. I. Medvedev, I. M. Demin, and V. D. Basonok.	1111	32

Loading Mechanism for Kilns — V. A. Polushkin	1113	32
Chemical Nickel Plating of Parts — R. M. Petrova and O. V. Kadkevich	1114	33
INFORMATION		
New Equipment Production.	1115	33
The Production and Use of Heat Exchange Equipment — V. I. Rublev.	1119	35
Safety Valves Using Permanent Magnets — I. S. Grinberg, V. L. Kisel', I. R. Krichker, M. T. Romanenko, I. Yu. Miroshnichenko, and O. I. Ratmanskii	1121	36
Experimental Study of Seals Used in Revolving Disc Valves — E. I. Veksel'man, G. A. Kuzmin, and A. K. Loginovas.	1125	38
Chemical Stability of Types of Rubber in Media for Production of Polyethers — E. Ya. Teplitskii and B. I. Kirichek.	1128	40
Articles Deposited at TsINTIKhIMNEFTEmASH.	1129	40
BOOK REVIEWS		
A. A. Yasinovskii. Equipment for Thermal Detoxification of Industrial Waste-Waters — Reviewed by M. Yu. Lur'e.	1130	41
A. F. Zubova. Reliability of Machines and Equipment for Chemical Plants — Reviewed by B. M. Gusev and F. A. Nesvizhskii.	1131	41
